The Future Homes and
Building Standard
consultation

Respond to the consultation by
27th March 2024

LETI firmly believes that by 2030 all new buildings need to be Net Zero Carbon in operation, which means that by 2025 all new buildings must be designed to meet **Net Zero**.

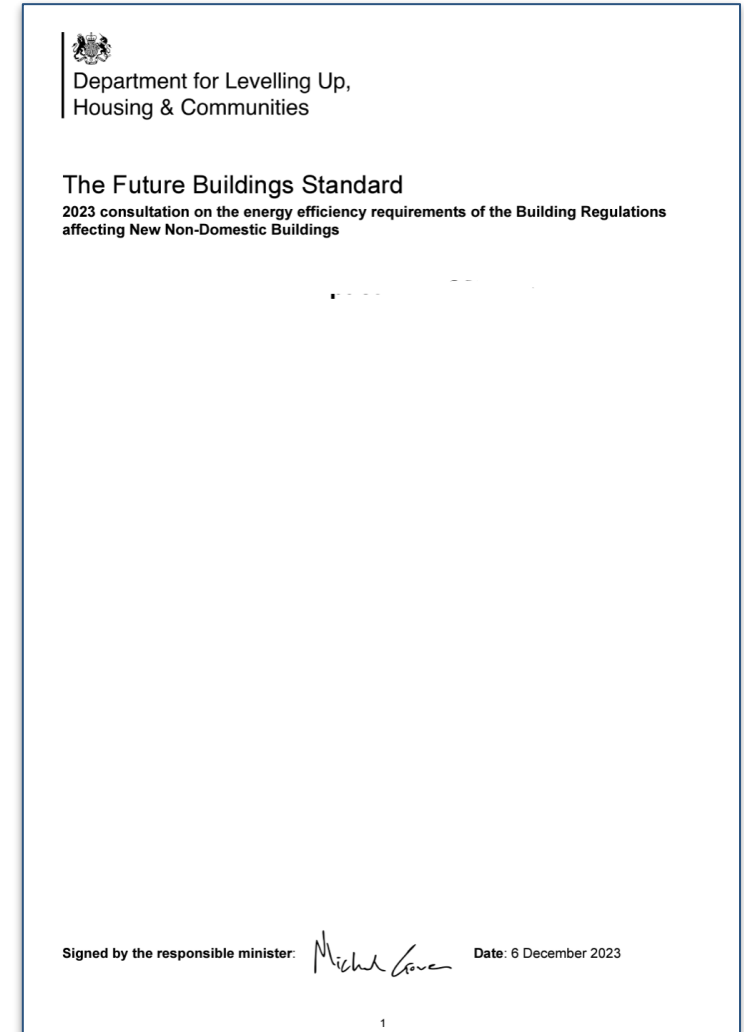

If **you** share this view we encourage you to respond to the Future Buildings Standard consultation.

X @LETI_UK

consultation@leti.uk

All of the resources relating to the consultation response are available at www.leti.uk/FHS

This comms pack contains information for the individuals that contributed to the guide and organisations that employ them.

Please help promote LETI's resources and Key messages around the Future Homes and Building Standard Consultation by

- **Emailing** your colleagues and contacts sharing the LETI resources
- **Posting** on LinkedIn and X (formally Twitter)
- **Adding** the news of the launch of the publication to your website

Please respond to the consultation!

Influencing the building regulations may be the **greatest impact** that you have in your career, **please respond to the consultation.**

Go to [Future Homes & Building Standards 2023 consultation](#) for all of the consultation documents & fill out this [this online survey](#) to respond to the consultation by **Wednesday 27th of March**, you can do this as an individual or on behalf of an organization.

If you have 10-15 mins

LETI have identified 18 key questions, and we encourage you to respond to these questions, as a priority. LETI have provided answers that we suggest, although we encourage you to respond with your own opinions on the matter.

If you have more time

Complete a full consultation response and develop and submit evidence to back up your views. See www.leti.uk/FHS for more information, which you might find helpful to reference when putting together your response.

What are LETI's key asks?

- **Engage in the consultation.** If you don't have time, then LETI has identified what we think are the key 18 questions to respond to. Download the document at www.leti.uk/FHS
- **Sign up to the collective letter** - go to www.goodhomes.org.uk/future-homes-standard-consultation-response
- **Develop + submit** technical evidence bases
- **Share the message** about the LETI future homes and building standard toolkit
- **Use the councillors** briefing note if you are a local authority

How you can promote the LETI messaging:

- **Invite your coworkers** to view our [webinar](#) to find out more about LETI's key messaging relating to the consultation documents, and share our consultation response toolkit on how to develop an impactful response.
- **Share LETI key messages** to your network and on social media, don't forget to tag us and use [#LETIkeymessaging](#) & [#FHSresponse](#) to maximise your impact.
- **Donate to LETI** whilst we are run by **volunteers** your financial support is incredibly important to fund our publications, help us have more impact and plan more ambitiously for the future www.leti.uk/donate

How you can promote the LETI messaging:

- Please always tag **LETI** in social media posts:

Twitter: [@LETI_UK](https://twitter.com/LETI_UK)

LinkedIn: www.linkedin.com/company/leti-uk

- Please use the following hashtags: [#LETIkeymessaging](#) & [#FHSresponse](#)
- Download our [social media asset](#) pack to use with your social media posts
- Always drive traffic towards www.leti.uk/FHS for downloading the document, not directly to the PDFs

LETI's key messages relating to the consultation:

An end to fossil fuels

The notional building specification uses a fossil fuel free system. This pushes new buildings away from gas.

- MVHR
- Smart meters
- Energy flexibility
- Sleevings
- Thermal bridging
- Part O
- WMS

1

Not compatible with achieving Net Zero in operation

2

Fabric performance should be better than Part L 2021

3

On-site renewable energy generation (PVs) should be encouraged

4

Embodied and Whole Life Carbon should be addressed

5

Developers should not be allowed to 'opt-out' of regulation

6

Net zero under these proposals will cost the country more

7

The consultation is not transparent and lacks an evidence base
